

**TO:** Christophe Goyet  
IDEMIA  
4250 Pleasant Valley Road  
Chantilly, VA 20151

**FROM:** Vanessa Arias, on behalf of the FIPS 201 Evaluation Program

**DATE:** June 17, 2025

**RE:** **Approval of Products/Services for Listing on the GSA APL**

The Office of Management and Budget (OMB) issued M-19-17, which requires Federal Agencies to procure only qualified products and services that are compliant with OMB policy, NIST standards, and supporting technical specifications, such as those listed on the GSA Approved Products List (APL), when implementing HSPD-12 and ICAM into their environment. The procurement of approved products and services facilitates the government-wide objective of a federated and interoperable ICAM segment architecture, ensuring compliance, consistency, and alignment of commercially available products and services with the requirements and functional needs of government ICAM implementers.

Accordingly, the FIPS 201 Evaluation Program is pleased to inform you that the following product/service has passed evaluation against all applicable Testing Requirements. Please see the attached document, which summarizes the specific parameters of the approval (e.g., product/service profile and the product/service tested). Your product/service will now be listed on the APL as shown below. If there are any errors in the listing information, please notify us within five (5) business days of receiving this letter.

## 1 Category - PIV Cards

### 1.1 APL Certification Number

- 1513

### 1.2 Product/Service Information

<b>Organization Name:</b>	IDEMIA
<b>Name of Product or Service:</b>	ID-One PIV 243
<b>Category:</b>	PIV Card
<b>Part Number:</b>	2292732
<b>Hardware Version:</b>	09A4D1
<b>Software Version:</b>	N/A
<b>Firmware Version:</b>	418424
<b>ATR:</b>	80 31 C1 55 61 24 31 00 00

### 1.3 Document History

Status	Date	Comments
Creation	06/17/2025	Approval of the product.

### 1.4 Restrictions:

The procuring agency should review the NIST PIV Card Application Validation List to determine which mandatory and optional capabilities the PIV applet on this card supports.

### 1.5 Vendor Contact Information:

Approval of the above product/service indicates your cooperation with the Program and successful evaluation against a rigorous, comprehensive set of functional requirements derived from government-wide specifications. Testing included evaluation against the International Organization for Standardization (ISO) and the American National Standards Institute (ANSI) published standards.

Given the strategic government-wide importance of the APL, the scope and extent of evaluation performed on your product/service, and the rigor with which it was tested, the Program would like to acknowledge the noteworthiness of the approval and listing. Your product or service will now be available to all Federal Agencies for procurement.

Please note that continued listing on the APL requires ongoing compliance with all applicable requirements, including those that may be added or amended over time. A listed product/service can become non-conformant for various reasons, including but not limited to:

- Failure to pass testing against new and revised requirements before the effective date of the new/revised requirements.
- Problems discovered in your listed product or service (or class of product or service) that are not addressed within the time frames specified by the Program.

Refer to the applicable Agreements and Program documents for specific details regarding ongoing compliance, including severity levels and remediation timeframes. Listed products and services that fall out of conformance will be removed from the APL and added to the Removed Products List (RPL).

If you have any questions, please feel free to contact me.
